Outcome overview

Charts and totals use the stored records in this export. Errors are excluded from average scores. 0 selected cases have no stored result yet; they are not counted as failures.

Evaluation	Usage and performance
AI Judge	2,000 target + judge tokens · 0.002000 USD
Pass threshold: 70 / 100	Run latency: average 850 ms / p95 1200 ms

Token totals may include estimates. Costs use the benchmark's configured prices.
